SUBJECT	Construction of Jetties, Haik'ou, Hainan	DATE DISTR.	25 May 1954	
		NO. OF PAGES	1	
25X1 DATE OF INFO.		REQUIREMENT		25X1
PLACE ACQUIRED		REFERENCES		25X1

- During November 1952 the administrative government of Hainan began building jetties at each end of the Hsuying (4423/5391) wharf, Haik'ou (N 20-03, E 110-20). The jetties were being built for military shipping. Each jetty was about 30 feet wide, five miles long, and 15 feet high and extended out to a depth which would permit the anchorage of 5,000-ton ships. The surface of each jetty was about one foot in thickness; and the supporting columns, spaced at 15-foot intervals, were built of reinforced concrete and gravel. As of early October 1953 these jetties were still under construction.
- Approximately 1,500 laborers, composed of villagers and persons undergoing "labor reform" had been assigned to this project. The laborers did not receive salary, but they were fed by a mess team (7391/0957) formed by the Hainan government.
